

FAA Safety Team presents:

The Dollars and Sense of ADS-B

Seminar Details: 10:40 AM Classroom C - ADS-B: The Dollars and Sense of It All, presented by Robbie Greer, owner and manager of Twin Lakes Avionics, and Tim Halley, FAA Airworthiness Inspector. Robbie will explain what types of ADS-B equipment are available, just exactly what is needed for airspace compliance, and what you can expect your cost to be for your aircraft and equipment. At the same time, an FAA FSDO inspector, Tim Halley, will be on hand to answer questions about future airspace regulations in the aviation world of 2020 as well as equipment compliance requirements. For example, will the same equipment be required in a certificated aircraft and an experimental aircraft? Will a Luscombe with only a battery and no generator qualify for operation in ADS-B airspace, even if it is equipped with all the required ADS-B equipment. Get the answers to these questions and more.

Directions: Seminars will be held in the NEW GTCC AV3 Campus across from HondaJet on Old Stage Coach Road. See Map connection. Look for seminar signs. Transportation for "Fly-Ins" can be arranged if you make 24 hour advance requests by calling Bob Sutherlin at 336-907-0487. Landmark ramp fee may be waived. Call for details.
